WHO WE ARE

Gelintex was founded in 1993, nowadays a well-known textile converter that specialized knitted fabric with an annual turnover of USD 30 million. For nearly 30 years of experience in Taiwan textile industry, we have built a solid reputation on supplying highest quality fabric to our clients from all over the world.

WHAT WE DO

Gelintex offers both knitted and woven textiles to satisfy the high demands of our clients. As a sister company of Lealea Group, we are able to work alongside and control the quality step by step, from yarn to finish products. The difference between us and others is that, we have advantage to work closely with knitting mills and dyeing factories on problem-solving and increasing the efficiency of the production. In addition, our dyeing mill is certified with bluesign®, OEKO-TEX®, and ISO certification. We assured our clients always satisfied once they see the quality from Gelintex.

With the prospect future of building lifelong business relationships with our global clients, Gelintex is fully committed to offer and develop cost-down fabrics in highest quality to fulfill our global clients. Our vision is to continue developing recycled/sustainable/ECOYA® yarn, using the best environmental solutions to protect our Earth. We want to make sure our partners and customers not only have highest quality garments, but also these products are made in the most sustainable way.
